GBCart | WordPress Plugin

version 1.3

GBCart is a mail order shopping cart.

No payment gateways are available/integrated, instead the order goes straight to administrator's email. It can also be used as an inquiry form for items or products.

Items are loaded in the database using simple table controls and they are immediately visible in the front-end. Use the cart for inquiry items, digital items, books, e-books, e-commerce items and more.

Shortcodes

[gbcart] - displays the products in a zebra table

[gbsearch] - displays a search input form

[gbcheckout] - displays the shopping cart and the checkout form

If you are not using the post editor, you can place the shortcode directly inside your PHP template, using this code:

```php
<?php
echo do_shortcode('[your-shortcode-here]');
?>
```

Features

- Seamless integration with WordPress styles (the integrated stylesheet works both for light themes and dark themes
- HTML5 compatible/valid
- reCAPTCHA

Installation

1. Upload the **gbcart** folder to your '/wp-content/plugins/' directory
2. Activate the plugin via the Plugins menu in WordPress
3. Set up your options inside the new **GBCart** menu
4. Review the shortcodes
5. Publish your post or page
